

Professional cleaning, without shipping *water*.

Leaf compresses full-strength cleaning and laundry products into thin, dissolvable sheets. Drop one in water — that's the whole job.

1SHEET = 1 EXACT
DOSE**6**PRODUCTS, ONE
SYSTEM

You're buying water. And paying to ship, store and lift it.

Traditional cleaning products are bulky, heavy and mostly water. Leaf sheets carry only the cleaning — you add the water at the point of use.

WHAT THAT MEANS ON SITE

One delivery, not a pallet

A month of cleaning fits in a drawer, not a storeroom.

Anyone can dose it

One sheet is always the right amount.
Zero training.

Nothing to pour or spill

Dry sheets — no leaks in transit, no splashes in use.

No heavy lifting

Grams, not 5-litre containers — safer manual handling.

HOW IT WORKS

1

Take one pre-dosed sheet.

2

Drop it in — spray bottle, bucket or machine.

3

Add water. It dissolves fully, from 20 °C.

4

Clean as normal. No residue, no waste.

SHELF LIFE

One system. Every clean.

Six sheets cover laundry, floors, surfaces, washrooms and dishes – same format, same process, every site.

Non-Bio Laundry Detergent Sheet

1 BOX = 75 WASHES

One sheet straight into the drum. Gentle, enzyme-free formula. 20–90 °C.

Bio Laundry Detergent Sheet

1 BOX = 75 WASHES

Enzyme-powered stain removal at low temperatures. One sheet, one wash.

Floor Cleaning Sheet

1 BOX = 30 BUCKETS

One sheet per 5L mop bucket or floor machine. All sealed hard floors.

Multi-Purpose Cleaning Sheet

1 BOX = 30 SPRAY BOTTLES

One sheet per 750ml trigger spray. Kitchens, bathrooms, worktops, glass.

Toilet Cleaning Sheet

1 BOX = 30 SPRAY BOTTLES

One sheet per 750ml spray bottle. Targets limescale. Spray, brush, flush.

Dish Washing Sheet

1 BOX = 75 CYCLES

One sheet in the machine amongst the dishes. Any programme, eco included.

OPERATIONAL BENEFITS

Standardise across sites

Same products and process across every location.

Minimise waste & overuse

Each sheet delivers the exact dose, no more, no less.

Reduce training

Pre-dosed formats remove complex instructions.

Better handling & safety

No heavy lifting, no spills, no dosing errors.

Built for the people who clean at scale.

Wherever cleaning happens every day, Leaf shrinks the storeroom, cuts dosing time and ticks the sustainability targets – in one switch.

Education

Zero plastic

100% plastic-free packaging.

Low-temp effective

Full performance from 20 °C.

No microplastics

Sheets dissolve completely.

Compact storage

Slim sheets reclaim shelf and storeroom space.

No shipped water

Up to 16x lighter freight.

No dilution guesswork

Built-in dose — less training, no dosing errors.

Try it. That's the pitch.

One sheet, one clean – the concept proves itself the first time you use it.

HOW IT WORKS

CLEANING MADE SIMPLE

1 TAKE A SHEET

Remove one Leaf sheet.

2 ADD TO WATER

Place in water or spray bottle.

3 DISSOLVE

Let the sheet dissolve fully.

4 CLEAN

Clean as usual and enjoy!
